How do I request greater permissions in Qualtrics?

How do I request greater permissions in Qualtrics?

To ensure appropriate use of the system, usage limits are in place for Qualtrics.
These can be found in the Qualtrics rules of use, best practices, and limitations under "Usage Limits".

If you need to exceed those limits, please contact helpdesk@mit.edu, explaining why you need an exception, and what access is needed.

Note: Some DLCs maintain their own Qualtrics "brands". These instructions apply only to the main MIT brand at http://mit.qualtrics.com.
