

How to Send Voicemail to Email using your BroadSoft Web Portal

Q: How to Send Voicemail to Email using your BroadSoft Web Portal

Unknown macro: {broadsoft}

Answer

If you set up voicemail to email in the past, the Broadsoft Cloud system will still send your voicemails to you via email. New accounts will default to sending voicemails to email.

If you would like to set up sending your voicemails to email, see the youtube video [How to Send Voicemail to Email using your BroadSoft Web Portal](#)
