

SOLIDWORKS 2019 and later, for Faculty and Staff - Installation Instructions

SOLIDWORKS 2019 and later, for Faculty and Staff - Installation Instructions

1. Download the .zip file.
2. Right click on the .zip file and select **Properties**.
3. On the General tab select the **Unblock** option.
4. Extract the .zip file.
Note: Windows versions prior to 10: You must use [7-zip](#) or other unzip utility that can unzip large files. Windows unzip cannot correctly extract the files.
5. Run Setup.exe.
6. Make sure you are either on [MITnet](#) directly or [connected via VPN](#).
7. Enter the Serial Number found below, replacing any pre-populated key.
[SOLIDWORKS Faculty/Staff Serial Number and License Server](#). (MIT certificate required)
8. Enter the **License Server** information found in Step 7.R
